### AEROFLEX CORPORATION

Aeroflex Test Solutions: ATE, Avionics, Broadband Test, Communications Test, General Purpose Test, PXI, Signal Sources, Stimulus Products, Synthetic & Wireless. Hi Rel integrated circuits & assemblies.

Aeroflex Weinschel: Attenuators, Terminations, Power Splitters/Dividers, DC Blocks, Phase Shifters, & Attenuator-Based RF Distribution Test Systems.

Aeroflex Control Components: High performance solid-state RF and microwave components and sub-systems.

### ANAREN MICROWAVE CORPORATION

Xinger™ SMT Couplers & Power Dividers, Baluns & RF crossovers; AdrenaLine™ Splitter/Combiner Networks; Isolators & Circulators; RF Power Components: High Power Couplers, Resistors, Attenuators & Terminations (BeO, AlN & Alumina); precision ceramic & LTCC circuits.

### AR MODULAR RF

RF Amplifier Systems & RF Modules from 5-5000 Watts for military communications, electronic warfare & electronic countermeasures, homeland security, & medical/scientific/industrial applications.

### DUCOMMUN TECHNOLOGIES

Electromechanical Microwave Switches & Relays, custom microwave & millimeter wave products including Amplifiers, Antennas, Control Devices, Ferrite devices, Frequency Converters, Oscillators, Passive Components & Integrated Assemblies.

### LARK ENGINEERING CO.

RF & Microwave Filters utilizing combline, interdigital, lumped element & ceramic resonator techniques.

### MICRO LAMBDA WIRELESS, INC.

YIG Oscillators, YIG Bandpass & Band Reject Filters, Frequency Multipliers, Phase-Locked Sources & Frequency Synthesizers.

### M2 GLOBAL TECHNOLOGY, LTD.

M2 Global Technology is a leading supplier of RF Circulators and RF Isolators covering the range of 380MHz to 40GHz, available in Coaxial, Drop-In, or Waveguide configurations as well as flexible and rigid Waveguide.

### RF MICRO DEVICES, INC.

Wireless Semiconductors including General Purpose Amplifiers, GaN design services, GaN power devices, Front End Modules, Quadrature Mod/Demod, Mixers, Switches, Transmitters, CATV, Bluetooth, WLAN & GPS.

### ROSWIN, INC.

Standard Monoblock Dielectric Filters for High Volume and Synthesized Signal Sources, DDS. RF Coaxial Switch for data cards, PDA's and wireless.

### SPRAGUE-GOODMAN ELECTRONICS, INC.

Microwave Tuning Elements, Trimmer Capacitors, Varactor Diodes, Inductors & Transformers, & Tuning Tools.

### VECTRON INTERNATIONAL

Crystals, Crystal Oscillators, TCXOs, VCXOs, OCXOs, SAW Filters, SAW Oscillators, Clock & Data Recovery Products, & Sensors.

### WIRELESS TELECOM GROUP Noisecom, Boonton, Microlab

High-performance RF & Microwave instruments & components including Peak Power Meters, Signal Analyzers, Power Splitters, Combiners, Diplexers, Noise Modules, Precision Noise Generators, & Mobile Phone Testing Solutions marketed under the Noisecom, Boonton, & Microlab brands.
